DON'T FIRE UNTIL YOU SEE THE RED OF THEIR EYES

Sipping cold lemonade with a couple of native lovelies, Mad Dog and Scorpion (Guerrilla Warriors extraordinaire) relax on a Rio beach and boast of how they destroyed the vile alien war monger, Red Falcon. Little do they know that Red Falcon didn't flee with his pointed tail between his legs. Instead, he tactically retreated to round-up ruffians of the universe, friends from all walks of war, to mount a second assault on planet Earth.

One of these new recruits is Jagger Froid, a demented alien from the Black Hole Galaxy, who dishes out punishment with a laser sharp tongue. Red Falcon has also shuttled in The Babalu Destructoid Mechanism, a giant alien attack tank, which was the primary weapon used to disintegrate the innocent solar system of Tralala.

But the genius behind Red Falcon's Earth conquering concept is his plan to have thousands of intergalactic warriors seep into the brains of the U.S. Army. It's a mind contamination trick which has already taken command of U.S. forces at Fort Fire Storm.

How do we know that our soldiers have been brain trashed? You can see it in their eyes.

Now, if Mad Dog and Scorpion fail to recuperate from their months on the beach in time to destroy Red Falcon's G.I. fortified Hate Nest, his sinister scheme will permeate the world's mightiest power (nuclear missile silos included).

And if that happens, we'll all be pushing up daisies.

HOW TO FIGHT FOR YOUR LIFE (AND EVERYONE ELSE'S!)

Fire! Fire! Fire! And don't stop firing are the only instructions you need. Because in this Doomsday extravaganza, there's little time for thinking. A killer instinct is all that matters. And if your trigger finger lacks stamina, Earth will lack a future.

To begin this all-out mega-war, press the Start Button. Next, press the Select Button to choose a 1 Commando or 2 Commando contest. If one Commando plays, you'll assume the savage role of Mad Dog with Controller #1. If a second Commando plays, he or she (yes, this is the nineties, and women make just as tough commandos as guys) will take charge of Scorpion with Controller #2.

Finally, press the Start Button again, and it's off to meet Red Falcon... or your maker!

HOW TO POWER-UP

At the beginning of your assault on Fort Fire Storm, your only "hide protection weapon" is a rifle. But if you blast away bouncing Power-Up Capsules and stationary Pill Box Sensors, they'll turn into Hawks. Capture these Hawks by moving your Commando onto them, and your odds of survival will improve a little.

NOTE: Each Hawk is labelled by a letter referring to the Super Weapon you'll receive.
